

OMED: ACADEMIC SUPPORT

Study Sessions are open study environments where any Georgia Tech student can come for academic support in all undergraduate courses offered. Tutors are available from 2pm to 10pm Sunday-Thursday in **Clough** and **The Center for Student Diversity & Inclusion**. These sessions are free and open to all GT students.

Guided Group Study allows groups of three or more students to set up periodic help sessions with a subject matter expert for the duration of the semester.

Focus on Physics is a joint effort with Georgia Tech's Physics Department that prepares students for the integration of Calculus concepts in the Physics course sequence.

Concept Classes are topic-specific lectures dealing with those portions of course material historically found to be the most challenging. These classes focus on topics, not problems and are relevant regardless of section and applicable to multiple courses.

ILARC, The Interactive Learning and Academic Resource Center, is OMED's academic resource hub. Students have a computer cluster, two small group study rooms with LCD displays and an open study area with access to tutors. The lab is on the 1st floor of the Center for Student Diversity & Inclusion, it is open Monday-Thursday from 8am to 8pm and Friday, 8am to 5pm.

The Media Center offers a large LCD display in an interactive room adaptable to meet the needs of various academic support activities and small group meetings.

Where is OMED located?

OMED: Educational Services is located in the newly renovated Center for Student Diversity and Inclusion (CSDI). 681 Cherry St. Atlanta, Ga 30332 Stop by and say hi!

What is OMED?

OMED: Educational Services is the unit charged with the retention, development, and performance of the complete student learner who is traditionally underrepresented: African-American, Hispanic, Native American, and multiracial students; however, our programs and other support channels are open to all Georgia Tech students.
